Profile

Software engineer with a background in teaching and classical languages. Recently completed Web Development bootcamp, helped to spearhead a software project recognised by Innovate UK. **Motivated, quick learner who enjoys complex problem solving and teamwork.**

Skills

- **Full-stack web development:** HTML, CSS/ SASS, JavaScript, React.js, Python, Ruby/ Rails, Heroku, PostgreSQL, REST APIs
- **Testing:** RSpec, Selenium
- **Collaboration:** Git, Github

Projects

Cheddar (2023-24)

- Jobs platform for sustainable companies
- **Rapidly prototyped core features**, allowing project to win funding from Innovate UK
- Built **web scraping and API tools** as well as **search, filter and auto-apply functions**

Hero (2023)

- Led team in developing parenting web app using **Ruby on Rails, JavaScript, PostgreSQL** and **Heroku**
- Designed **Ajax UI components, geospatial mapping** and **sort and filter algorithms**

Education

Web Development, Le Wagon, London

09/23 - 12/23

- 9-week full-time intensive coding bootcamp learning HTML / CSS, JavaScript, React, SQL, Git, Heroku, Ruby / Rails and more
- Successfully pitched my idea for Hero web app and led a four-person team on final capstone project
- Recognised for collaboration and mentoring skills with invitation to join the course as TA

MA European History (Distinction),

King's College London,

Humboldt-Universität zu Berlin

09/13 - 06/15
