Profile

Software engineer with a background in education and classical languages. I currently work on a server-side team at Shazam, where I build and improve services and data pipelines that power music discovery for hundreds of millions of users.

I love to learn, prototype, and write code that's easy for the next engineer to work on. Projects recognised by Ofsted and Innovate UK.

Education

Level 4 Apprenticeship (Distinction), Software Engineering

Apple, Makers

09/24 - 01/26

MA European History (Distinction)

Humboldt-Universität zu Berlin,

King's College London

09/13 - 06/15

BA Latin, University of Oregon, USA

09/04 - 06/09

Languages

English | German | Spanish | French
Italian | Latin | Classical Greek

Technical Skills

Languages: Kotlin, Java, Scala, SQL

GCP & Data: Cloud Run (Serverless APIs), Dataproc (Apache Spark), Cloud Composer (Airflow)

Infra: Terraform (IaC), Helm, Docker, CI/CD pipelines

Engineering: Distributed systems, TDD

Professional Experience

Apprentice Software Engineer

Apple, London

09/24 - present

- **Test-drove development of a new music video discovery feature** on the Shazam Android team, writing in Kotlin and working closely with product, design and analytics.
- **Designed and delivered a new internal web platform**, providing secure, authenticated access to protected data across multiple GCP and AWS-hosted backend services.
- **Built and debugged cloud-based microservices** that interface with distributed data pipelines to handle high-volume data ingestion.

Teaching Assistant,

Le Wagon Web Development Bootcamp

01/24 - 09/24

Teacher of Classics and History

St Philip's School, Scuola Italiana a Londra and private tutoring

09/17 - 09/23

Hobby Projects

Cheddar (2023-24)

- Engineered data pipelines and API integrations to power a graduate jobs platform developed with funding from Innovate UK.

School Compare (2024)

- Collaborated on a Spring Boot web application, leading integration with MapBox API to build an interactive JavaScript map feature.

Quizzzy (2021-22)

- Created a very customisable quiz platform for classroom learning, used in schools and recognised by Ofsted for educational impact.
